

The Ferris Connections Program allows students to be dually admitted at their current college and Ferris State University. The Program enhances and strengthens the student's connection between academic programs at both institutions. The program assists students in being comfortable both academically and socially at both their current college and Ferris.

[Connections Application](#)

Ferris Connections creates a seamless transition beginning with the student's current college through the completion of the bachelor's degree at Ferris. Connections students have access to services and resources at both institutions. Through this collaboration, students will have access to a Ferris student ID, library resources, financial aid information, career advising, and other student services along with activities and events at both institutions.

Colleges interested in developing a Connections Agreement with Ferris should contact us at OTSSP@Ferris.edu.
